

Josué Santiago Gallego Rendón

Multimedia Engineer in Training | Junior Web Developer

Cali, Colombia | josugallegor@gmail.com | linkedin.com/in/josu-gallego | github.com/josuegallego

PROFESSIONAL PROFILE

Innovative developer with a strong foundation in multimedia engineering and fullstack development. My approach combines technical precision with creativity to design solutions that are not only functional but also engaging for users. Experience in digital communication and teamwork has strengthened my ability to adapt quickly, collaborate effectively, and drive projects forward. I seek to contribute with a mix of technical expertise, creative thinking, and problem-solving skills to projects in web development, interactive media, and digital innovation.

EDUCATION

B.Eng. in Multimedia Engineering — Universidad Autónoma de Occidente	Cali, Colombia
<i>Currently pursuing degree</i>	2023 – 2027
• Valedictorian Awarded – Languages Institute (2025)	
Electronics Maintenance Technician — SENA	Colombia
<i>Specialization in Consumer Audio & Video Equipment</i>	2022
• English Dot Works Program – English Language Training (2022)	
Electronics Technician — I.E.T.I. España	Colombia
<i>High School with academic honors</i>	2022

WORK EXPERIENCE

Customer Service & Multimedia / Web Developer — Jussi Pizza	Jamundí, Colombia
<i>Family business — Multimedia, Marketing & Operations</i>	2015 – 2025 10 years
• Designed and developed a web-based order management system, improving internal workflows and customer service.	
• Created digital advertising materials (banners, social media campaigns, promotional videos) to increase brand visibility.	
• Applied graphic design and audiovisual production skills for marketing strategies.	
• Supported day-to-day operations and customer service, strengthening teamwork and communication skills.	

PROJECTS

BarberSaaS — Barbershop Admin Panel	2025
<i>Full-stack administrative dashboard for barbershop management</i>	
• Backend: Laravel 13 + PostgreSQL with RESTful API and Sanctum authentication.	
• Frontend: React + Vite with dark glassmorphism design, appointments, clients, and services modules.	
Mobile Wallet — Financial App	2025
<i>Cross-platform personal wallet mobile app — React Native + Expo</i>	
• Authentication via Clerk (OAuth + email verification). Transactions by category, income/expense summary.	
• Synced with REST API backend on Express.js + Neon PostgreSQL.	
Jussi Pizza — Web & Order App	2024
<i>Website and PWA for a local pizzeria in Jamundí — Next.js + React</i>	
• Gallery carousel, branch map, full order flow (pizza/drinks/lasagna), delivery fee by neighborhood.	
• Direct checkout via WhatsApp API integration.	
Cali Turismo — Tourism App	2024
<i>Web tourism application for Santiago de Cali — Next.js 15 + TypeScript</i>	
• Interactive Leaflet map, photo gallery per attraction, category filters, and detail panel.	
• Built with Tailwind CSS and shadcn/ui.	
Interactive Video — Narrative Challenge	2024
<i>Interactive video experience with 11-branch decision tree — JavaScript + HTML5 Video</i>	

- Viewer chooses the story direction in real time via a custom vanilla JS state controller.
- Audio produced with Pro Tools; post-production in Adobe Premiere and After Effects.

2024

ARtmosphere Interactive — AR/VR Portfolio Site

Portfolio website for an AR/VR experiences company — JavaScript

- Showcases AR projects for businesses: advergames, AR business cards, educational apps, and immersive services.
- Includes an interactive quiz as a product demo.
